HIGH IMPACT + RECYCLED CONTENT

WINDOW FRAME MANUFACTURER

THERMAL BREAK FOR ALUMINUM WINDOWS

KEY REQUIREMENTS

- Reinforced polyamide 66 (PA66) with post-industrial recycled (PIR) content
- High-impact performance
- Consistent quality in the extrusion process
- Product carbon footprint certification

AVIENT SOLUTION

Nymax™ REC Recycled Nylon Formulations

WHY AVIENT?

- Developed a formulation that met requirements with the first sample
- Maintained steady quality in later industrial samples
- Provided sustainability expertise to achieve product carbon footprint certification
- Secured supply of PIR nylon in required quantities
