# 1. PRODUCT AND COMPANY IDENTIFICATION

#### POLYONE CORPORATION 2700 Papin Street, St. Louis, MO 63103

NON-EMERGENCY TELEPHONE	:	Product Stewardship, (314) 771-1800
Emergency telephone number	:	CHEMTREC 1-800-424-9300 (24hrs for spill, leak, fire, exposure or accident).
Product name	:	MB99140CBA MIKROFINE ADC-21 (50%-DIDP)
Product code	:	FO20000135
Chemical Name	:	Mixture
CAS-No.	:	Mixture
Product Use	:	Industrial Applications

#### 2. COMPOSITION/INFORMATION ON HAZARDOUS INGREDIENTS

Components	CAS-No.	Weight %
Silica, amorphous, precipitated and gel	112926-00-8	1 - 5

#### **3. HAZARDS IDENTIFICATION**

#### **EMERGENCY OVERVIEW**

Material contains a flammable solid. Ground containers and equipment before transfering. This mixture has not been evaluated as a whole for health effects. Information provided on health effects of this product is based on the individual components. In addition, heating or processing this material may result in product degradation or byproduct formation creating additional hazards. See Sections 8 and 11 for additional details.

#### POTENTIAL HEALTH EFFECTS

Routes of Exposure:	: Eyes, Inhalation, Skin contact, Ingestion		
Acute exposure			
Inhalation Ingestion Eyes Skin	<ul> <li>At process temperatures, product emissions may cause irritation.</li> <li>No adverse health effects are anticipated.</li> <li>May cause eye/skin irritation.</li> <li>Experience shows no unusual dermatitis hazard from routine handling.</li> </ul>		
Chronic exposure	: Refer to Section 11 for Toxicological Information.		
Medical Conditions Aggravated by Exposure:	: None known.		

## MATERIAL SAFETY DATA SHEET

# MB99140CBA MIKROFINE ADC-21 (50%-DIDP)

Version Number 1.0 Revision Date 06/14/2002 Page 2 of 6 Print Date 11/5/2011

artificial respiration. When symptoms persist, or in all cases of dou seek medical advice. Ingestion : Not an anticipated health hazard. Eyes : Rinse immediately with plenty of water, also under the eyelids, for least 15 minutes. If eye irritation persists, seek medical attention. Skin : Wash off with soap and plenty of water. <b>5. FIRE-FIGHTING MEASURES</b> Flash point : No data available. Flammable Limits Upper explosion limit : No data available. Lower explosion limit : No data available. Suitable extinguishing media : waterfoam. Special Fire Fighting Procedures Unusual Fire/Explosion Hazards Unusual Fire/Explosion Explosion Ex			4. FIRST AID MEASURES
Eyes       : Rinse immediately with plenty of water, also under the eyelids, for least 15 minutes. If eye irritation persists, seek medical attention.         Skin       : Wash off with soap and plenty of water.         Skin       : Wash off with soap and plenty of water.         Flash point       : No data available.         Flash point       : No data available.         Flammable Limits       Upper explosion limit         Upper explosion limit       : No data available.         Lower explosion limit       : No data available.         Autoignition temperature       : No data available.         Suitable extinguishing media       : waterfoam.         Special Fire Fighting       : Fullface self-contained breathing apparatus (SCBA) used in positiv pressure mode should be worn to prevent inhalation of airborne contaminants. Cool closed containers exposed to fire with water spr Decomposition products are flammable. May form explosive smoke/air mixtures if inadvertently heated above 50°C (122°F) or stored incorrectly. If inadvertent heating of product results in smok production, spray immediately and thoroughly with water.         Unusual Fire/Explosion       : The thermal decomposition products are flammable and when concentrated can form an explosive mixture. Provide adequate ventilation. Ensure smoke and mist are not allowed to accumulate. <b>6. ACCIDENTAL RELEASE MEASURES</b> Personal precautions       : Wear appropriate personal protection during cleanup, such as impervious gloves, boots and coveralls.         Environ	Inhalation	:	Remove to fresh air. If breathing is irregular or stopped, administer artificial respiration. When symptoms persist, or in all cases of doubt seek medical advice.
least 15 minutes. If eye irritation persists, seek medical attention.         Skin       : Wash off with soap and plenty of water. <b>5. FIRE-FIGHTING MEASURES</b> Flash point       : No data available.         Flammable Limits       : No data available.         Upper explosion limit       : No data available.         Lower explosion limit       : No data available.         Suitable extinguishing media       : waterfoam.         Special Fire Fighting       : Fullface self-contained breathing apparatus (SCBA) used in positiv pressure mode should be worn to prevent inhalation of airborne contaminants. Cool closed containers exposed to fire with water spr Decomposition products are flammable. May form explosive smoke/air mixtures if inadvertent heating of product results in smok production, spray immediately and thoroughly with water.         Unusual Fire/Explosion       : The thermal decomposition products are flammable and when concentrated can form an explosive mixture. Provide adequate ventilation. Ensure smoke and mist are not allowed to accumulate. <b>6. ACCIDENTAL RELEASE MEASURES</b> Personal precautions       : Wear appropriate personal protection during cleanup, such as impervious gloves, boots and coveralls.         Environmental precautions       : Should not be released into the environment. The product should n be allowed to enter drains, water courses or the soil.         Methods for cleaning up       : Contain and collect spillage with non-combustible absorbent materi (e.g. sand, earth, diatomaceus earth, vermiculite)	Ingestion	:	Not an anticipated health hazard.
5. FIRE-FIGHTING MEASURES         Flash point       : No data available.         Flammable Limits       Upper explosion limit       : No data available.         Lower explosion limit       : No data available.       .         Autoignition temperature       : No data available.       .         Suitable extinguishing media       : waterfoam.       .         Special Fire Fighting       : Fullface self-contained breathing apparatus (SCBA) used in positiv pressure mode should be worn to prevent inhalation of airborne contaminants. Cool closed containers exposed to fire with water spr Decomposition products are flammable. May form explosive smoke/air mixtures if inadvertent heating of product results in smok production, spray immediately and thoroughly with water.         Unusual Fire/Explosion       : The thermal decomposition products are flammable and when concentrated can form an explosive instrure. Provide adequate ventilation. Ensure smoke and mist are not allowed to accumulate. <b>6. ACCIDENTAL RELEASE MEASURES</b> Personal precautions       : Wear appropriate personal protection during cleanup, such as impervious gloves, boots and coveralls.         Environmental precautions       : Should not be released into the environment. The product should n be allowed to enter drains, water courses or the soil.         Methods for cleaning up       : Contain and collect spillage with non-combustible absorbent materi (e.g. sand, earth, diatomaceus earth, vermiculite) and place in container for disposal according to local / national regulations (see	Eyes	:	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If eye irritation persists, seek medical attention.

Melting point/range	: Not applicable	Vapor density	:	Not determined
Boiling Point:	: Not applicable	pH	:	Not determined
Water solubility	: negligible			

#### **10. STABILITY AND REACTIVITY**

Stability	:	Stable.
Hazardous Polymerization	:	Will not occur.
Conditions to avoid	:	Heat, flames and sparks.
Incompatible Materials	:	Reacts with water or acids to form carbon dioxide.
Hazardous decomposition products	:	hydrocarbons ammonia Carbon dioxide (CO2), carbon monoxide (CO), oxides of nitrogen (NOx), other hazardous materials, and smoke are all possible. Decomposition products are flammable. May form explosive smoke/air mixtures if inadvertently heated above 50°C (122°F) or stored incorrectly.

#### 11. TOXICOLOGICAL INFORMATION

This mixture has not been evaluated as a whole for health effects. Exposure effects listed are based on existing health data for the individual components which comprise the mixture.

#### Toxicity Overview

This product contains the following components which in their pure form have the following characteristics:

CAS-No.	Chemical Name	Effect	Target Organ
112926-00-8	Silica, amorphous,	Irritant	Respiratory system, Eyes.
	precipitated and gel		

#### **12. ECOLOGICAL INFORMATION**

Persistence and degradability	:	No data available.
Environmental Toxicity	:	No data available.
<b>Bioaccumulation Potential</b>	:	No data available.
Additional advice	:	No data available.

#### 13. DISPOSAL CONSIDERATIONS

Product

: The generator of waste material has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial and local regulations.
